

3,5-Dichloro-2,6-bis (trifluoromethyl) pyridine

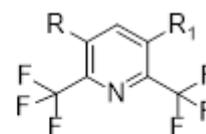

3,5-ジクロロ-2,6-ビス(トリフルオロメチル)ピリジン

3,5,2,6-DCBiTF

ISK-d-7

The title compd. ($R = R_1 = \text{Cl}$) was aminated at 8 kbar and 100°C with a variety of secondary amines to give 3,5-diamino-2,6-bis(trifluoromethyl)pyridines ($R = R_1 = \text{pyrrolidino, perhydroazepino, piperidino, morpholino, 4-methylpiperazino, thiomorpholino}$; $R = \text{morpholino, R1 = thiomorpholino}$) in excellent yields.

Chemistry Express (1988), 3(12), 739-42.
